

Kaiserstand Bracket

Version 3.0

Project Goals

Create an easy to install and easy to remove bracket for Kaiser Stand

My model is [RS2 XA](#)

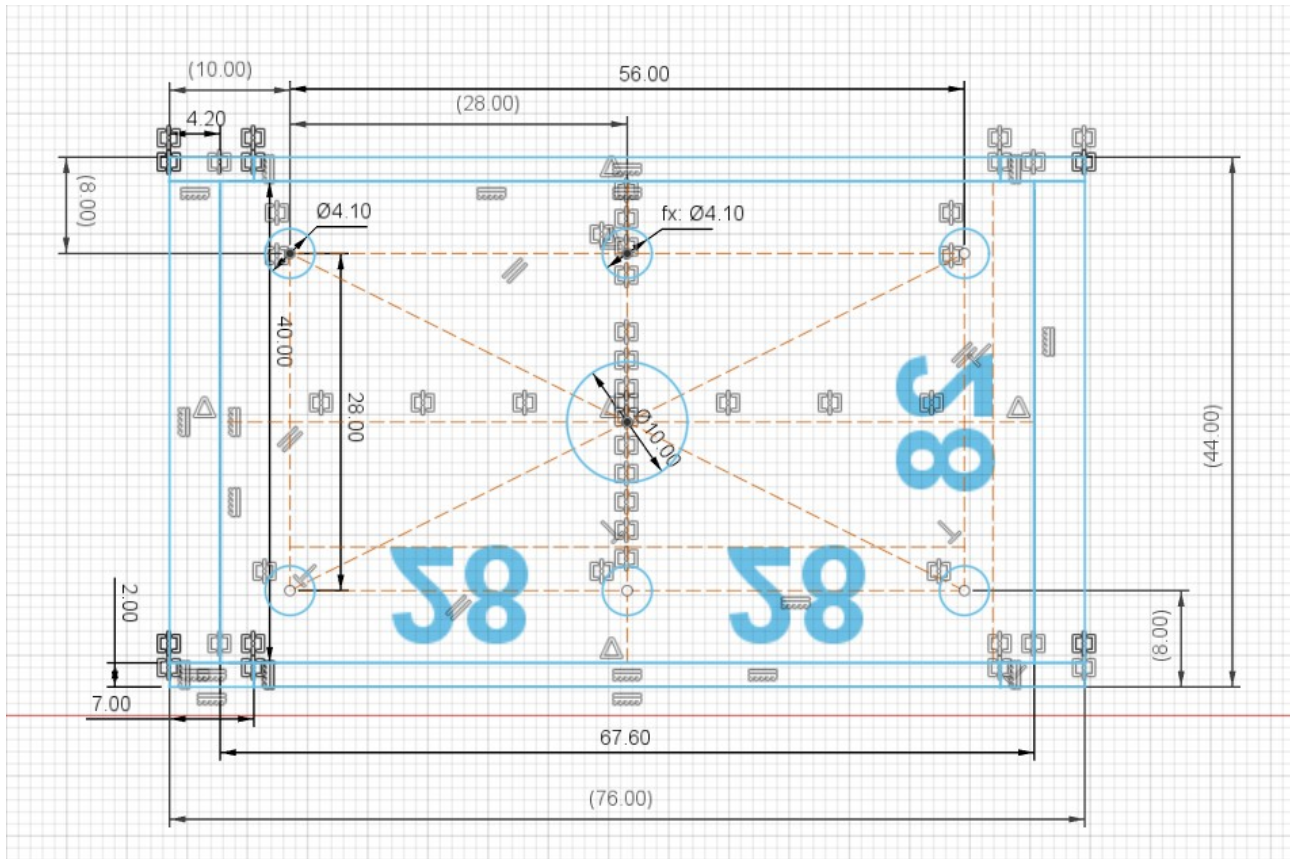

Drawings

Back size: 76x44 mm

There is an hole in the center to avoid interference with the photo mount screw.

Mounting threads are created using M3 heat set inserts

There are 6 mounting holes, 28 mm spaced.

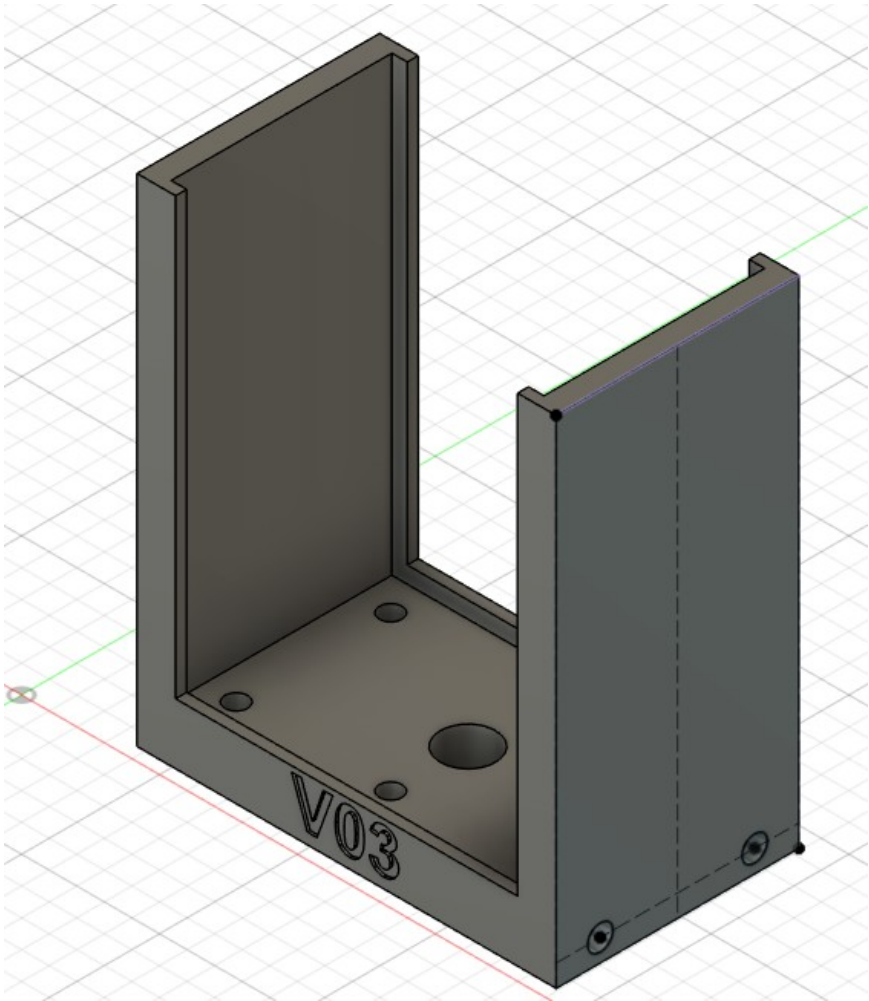

Side view

Basic dimensions: 44 x 90 mm

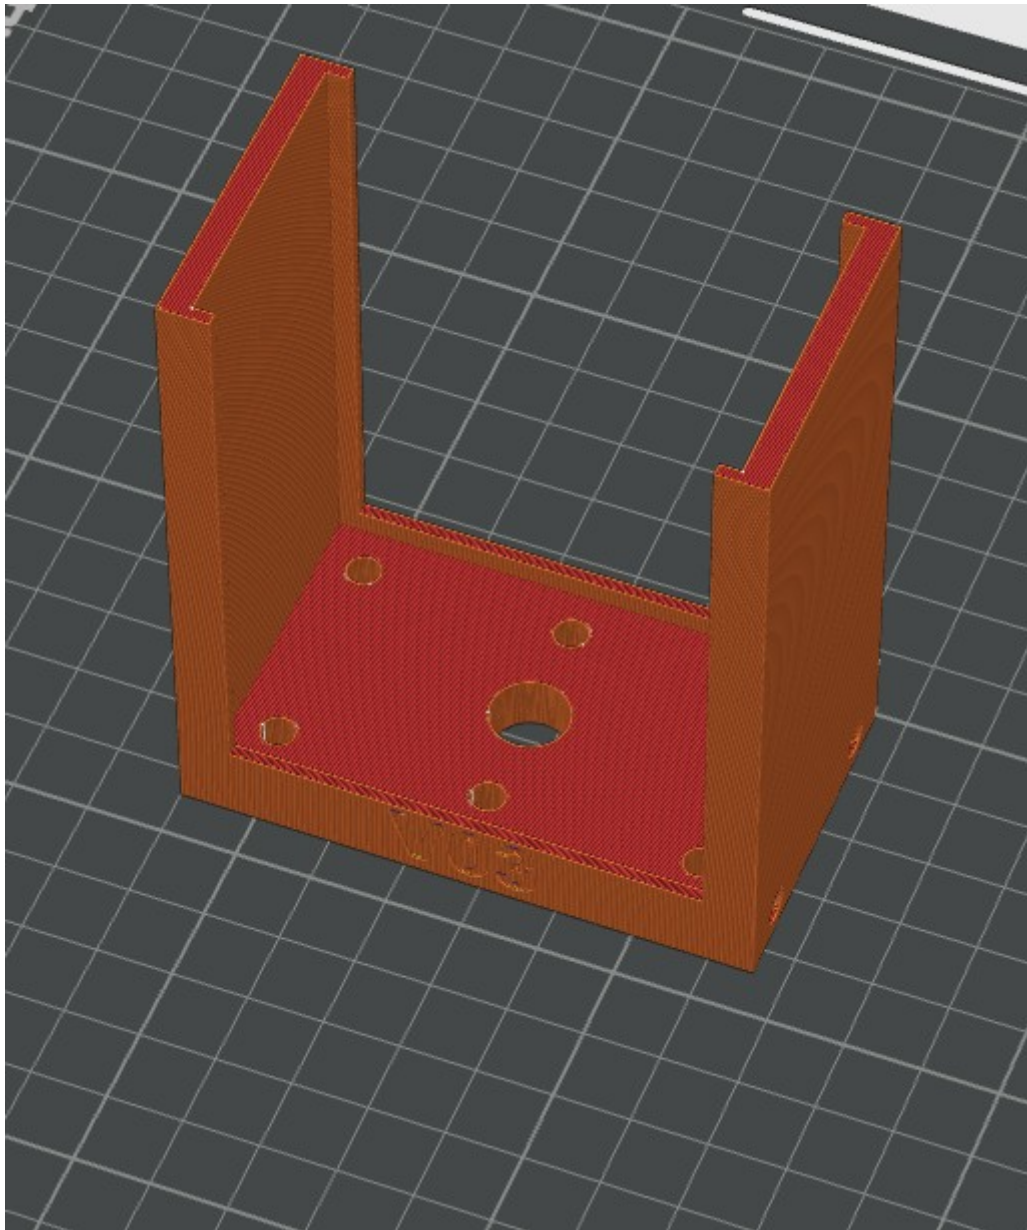

There are 2 mounting threads 28 mm spaced in the center.

3D Rendering

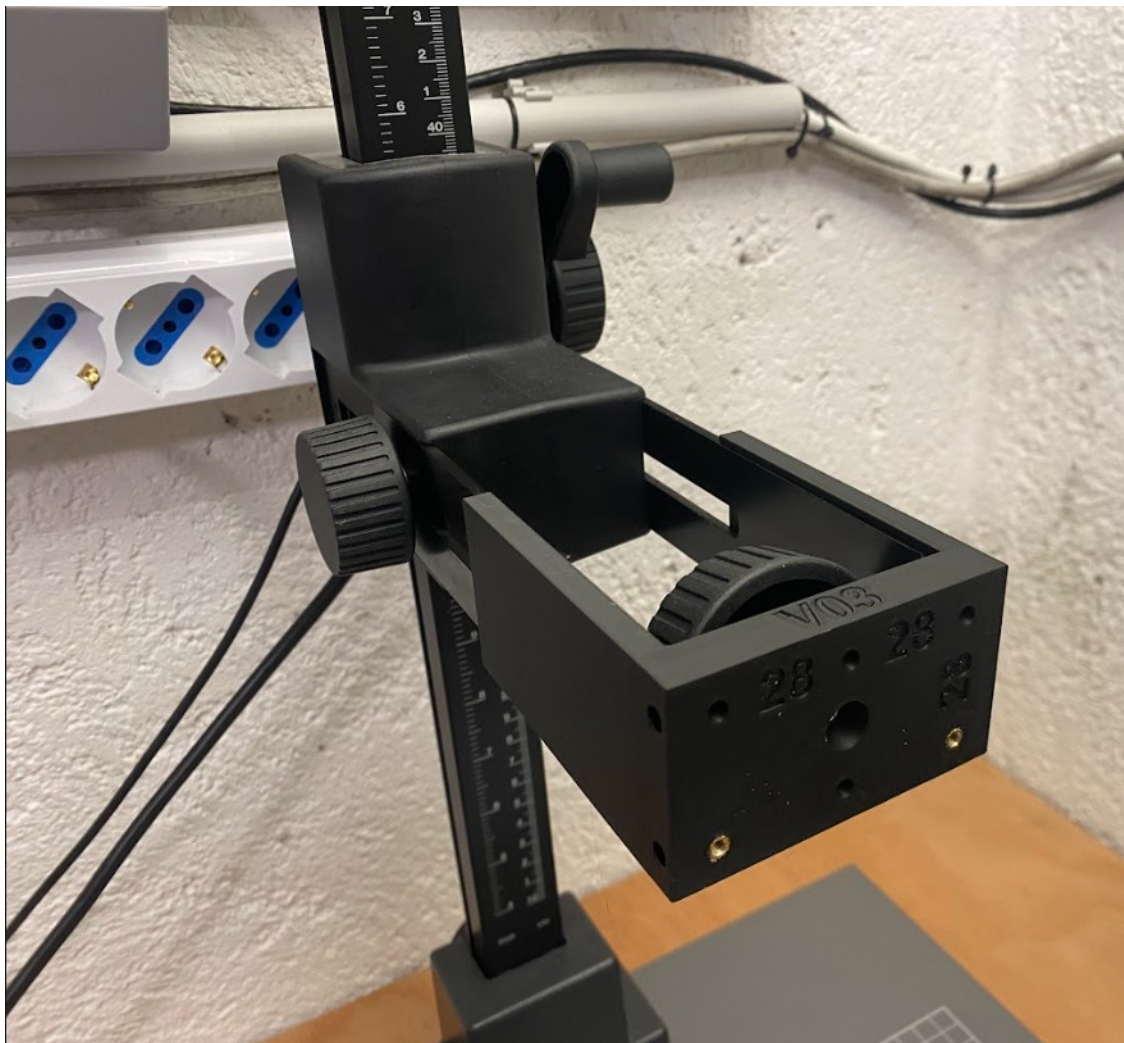

3D Printer layout

Final result

This is the final result. Not all heat inserts are in place.

For the next Iteration

No request.
